

FLEXIMAG

The Magnet pole pieces have been specially developed using modern alloys to produce a very high field strength/weight ratio. The high flexibility, to enable inspection through 360°, is achieved by the Flexigrup handle.

FLEXI-MAG SPECIFICATIONS

1. Conforms to BS 6072 - paragraph 15.3.
2. Weight 1 Kilogram.
3. Will Lift in Excess of 20 Kilograms.
4. No Keeper Required.
5. Each Pole consists of:-
Stainless Steel facing for Lasting Wear & Easy Cleaning.
Potted to Absorb Shock on Contact.
Offset Pivot for Easy Removal.
6. Flexible Sleeved Handle. Dimensions 60mm x 15mm.
7. Pole pieces Flexible through 360°.
8. 2700 Gauss each Pole.
9. 7000 Gauss with 1.75mm Pole spacing.
10. With 110mm Pole Spacing and a 1.75mm Gap between 2, 6mm thick Plates Field Strength 3000 Gauss.
