Body and knuckles texture coat Red. Legs epoxy black and plated feet.

GENERAL

Ideal "On site" permanent magnet enabling easy view of inspection areas. The J.A.M.'s strength is attributable to modern magnetic materials and superior design. The stainless tie rods ensure no internal "shorts" of magnetic field, maximising output at the poles. One of the complete range of MPI products. Also within the Johnson & Allen comprehensive range.
POLYMAG — Large handled horse shoe magnet.
FLEXIMAG — Flexible pole magnet
J.A.Y. — 110V and 240V electro magnet.
