

POLYMAG PERMANENT HORSESHOE MAGNET

MAGNETS BY THEIR VERY NATURE ARE INHERENTLY BRITTLE, AND SUSCEPTIBLE TO DAMAGE. COMPLETE ENCAPSULATION SIGNIFICANTLY REDUCES THE RISK OF BREAKAGE.

FEATURES

1. 45KG lift capacity.
2. Complete all in one encapsulation forms protective coating and moulded handle.
3. High visibility yellow colour.
4. Tough non-brittle polymer which will not crack. Resistant to impact damage abrasion and most chemicals.
5. Integral heavy duty handle enables easy removal from work piece reducing operator fatigue.
6. Complies with BS 6072 Para 15.3.
7. Ideal as a search and retrieval magnet or alternatively an underwater securing clamp.
8. Long life expectancy (always replace keeper after use).

WEIGHT	Magnet	3KG	Magnet & Keeper	3.4KG
---------------	--------	-----	-----------------	-------

DIMENSIONS	Width	60mm	Length	140mm
	Total Height with Handle		170mm	
	Magnetic Poles Cross Section		45x30mm	
	(Inspection Area) Pole Gap		50mm	

Supplied with individual serial numbers.
